

Iris Pendant Light – Technical Specifications

Iris Pendant Light

The 'Iris' Inspired leaved are elegantly curved at the sets of angles and distanced to produce a perfectly proportioned pendant feature. The ambient light casts pleasing shadows and glows warmly against the sets of leaves giving the definition and character. The pendant lights can be suspended individually or as a group within larger spaces. Due to the relatively lightweight structure, no additional wires are needed, and the pendant rests on the shade ring of the lampholder.

Designer – Alex MacMaster

Year of Launch - 2009

Process - Curved laminations of structural ply and solid timber veneers

Materials - Available in Walnut, Sycamore and Oak

Awards – New Design Britain, 2009. Category winner.

Cleaning and Care - The wood is sealed and waxed. The product can be cleaned with a dry dust cloth when required and should occasionally be re-waxed with a quality polish to remove marks and bring out the beauty of the grain. Sunlight may cause discoloration of the timber over a period of time.

Please use a competent electrician to wire the flex to the mains

Dimensions (cm/in)

Height 35 cm / 13.8 in

Diameter 55 cm / 21.7 in

Weight - 1kg or 2.2 lbs

Bulb - North America Fittings

ES26 11-14W Energy Saving Bulb

Bulb - United Kingdom Fitting

ES27 11- 14W Energy Saving Bulb

Megaman Ultra Compact Classic Bulb (GA911i B22)

Supplied with 1.5 Metres 3-core black fabric flex

DO NOT EXCEED RECOMMENDED BULB WATTAGE
