### Nest Dining Table

Nest Dining Table is an extension of the Nest coffee table theme. It consists of multiple layers of fixed solid timber lengths which form a structure to support a toughened glass top. The impressive dining table retains the same visual interest and elegance as its smaller version yet can comfortably accommodate six to 8 diners around it.

---

Designer - Limahl Asmall

Year of Launch - 2010

Process - Timber milling, timber turning, forming and finishing

Materials - Available in Walnut, Sycamore and Oak

Cleaning and Care - The wood is sealed and waxed. The product can be cleaned with a dry dust cloth when required and should occasionally be re-waxed with a quality polish to remove marks and bring out the beauty of the grain. Sunlight may cause discoloration of the timber over a period of time.

Dimensions (cm/in)

Height 75 cm / 29.5 in

Diameter 140 cm / 55.1 in

Dimensions - Can be altered to bespoke proportions
